ANNEX TO THE PROTOCOL AMENDING THE TRIPS AGREEMENT

Article 31bis

1. The obligations of an exporting Member under Article 31(f) shall not apply with respect to the grant by it of a compulsory licence to the extent necessary for the purposes of production of a pharmaceutical product(s) and its export to an eligible importing Member(s) in accordance with the terms set out in paragraph 2 of the Annex to this Agreement.
 2. Where a compulsory licence is granted by an exporting Member under the system set out in this Article and the Annex to this Agreement, adequate remuneration pursuant to Article 31(h) shall be paid in that Member taking into account the economic value to the importing Member of the use that has been authorized in the exporting Member. Where a compulsory licence is granted for the same products in the eligible importing Member, the obligation of that Member under Article 31(h) shall not apply in respect of those products for which remuneration in accordance with the first sentence of this paragraph is paid in the exporting Member.
 3. With a view to harnessing economies of scale for the purposes of enhancing purchasing power for, and facilitating the local production of, pharmaceutical products: where a developing or least-developed country WTO Member is a party to a regional trade agreement within the meaning of Article XXIV of the GATT 1994 and the Decision of 28 November 1979 on Differential and More Favourable Treatment Reciprocity and Fuller Participation of Developing Countries (L/4903), at least half of the current membership of which is made up of countries presently on the United Nations list of least-developed countries, the obligation of that Member under Article 31(f) shall not apply to the extent necessary to enable a pharmaceutical product produced or imported under a compulsory licence in that Member to be exported to the markets of those other developing or least-developed country parties to the regional trade agreement that share the health problem in question. It is understood that this will not prejudice the territorial nature of the patent rights in question.
 4. Members shall not challenge any measures taken in conformity with the provisions of this Article and the Annex to this Agreement under subparagraphs 1(b) and 1(c) of Article XXIII of GATT 1994.
 5. This Article and the Annex to this Agreement are without prejudice to the rights, obligations and flexibilities that Members have under the provisions of this Agreement other than paragraphs (f) and (h) of Article 31, including those reaffirmed by the Declaration on the TRIPS Agreement and Public Health (WT/MIN(01)/DEC/2), and to their interpretation. They are also without prejudice to the extent to which pharmaceutical products produced under a compulsory licence can be exported under the provisions of Article 31(f).
-

ANNEX TO THE TRIPS AGREEMENT

1. For the purposes of Article 31*bis* and this Annex:
 - (a) "pharmaceutical product" means any patented product, or product manufactured through a patented process, of the pharmaceutical sector needed to address the public health problems as recognized in paragraph 1 of the Declaration on the TRIPS Agreement and Public Health (WT/MIN(01)/DEC/2). It is understood that active ingredients necessary for its manufacture and diagnostic kits needed for its use would be included¹³;
 - (b) "eligible importing Member" means any least-developed country Member, and any other Member that has made a notification¹⁴ to the Council for TRIPS of its intention to use the system set out in Article 31*bis* and this Annex ("system") as an importer, it being understood that a Member may notify at any time that it will use the system in whole or in a limited way, for example only in the case of a national emergency or other circumstances of extreme urgency or in cases of public non-commercial use. It is noted that some Members will not use the system as importing Members¹⁵ and that some other Members have stated that, if they use the system, it would be in no more than situations of national emergency or other circumstances of extreme urgency;
 - (c) "exporting Member" means a Member using the system to produce pharmaceutical products for, and export them to, an eligible importing Member.
2. The terms referred to in paragraph 1 of Article 31*bis* are that:
 - (a) the eligible importing Member(s)¹⁶ has made a notification² to the Council for TRIPS, that:
 - (i) specifies the names and expected quantities of the product(s) needed¹⁷;
 - (ii) confirms that the eligible importing Member in question, other than a least-developed country Member, has established that it has insufficient or no manufacturing capacities in the pharmaceutical sector for the product(s) in question in one of the ways set out in the Appendix to this Annex; and
 - (iii) confirms that, where a pharmaceutical product is patented in its territory, it has granted or intends to grant a compulsory licence in accordance with Articles 31 and 31*bis* of this Agreement and the provisions of this Annex¹⁸;
 - (b) the compulsory licence issued by the exporting Member under the system shall contain the following conditions:

¹³ This subparagraph is without prejudice to subparagraph 1(b).

¹⁴ It is understood that this notification does not need to be approved by a WTO body in order to use the system.

¹⁵ Australia, Canada, the European Communities with, for the purposes of Article 31*bis* and this Annex, its member States, Iceland, Japan, New Zealand, Norway, Switzerland, and the United States.

¹⁶ Joint notifications providing the information required under this subparagraph may be made by the regional organizations referred to in paragraph 3 of Article 31*bis* on behalf of eligible importing Members using the system that are parties to them, with the agreement of those parties.

¹⁷ The notification will be made available publicly by the WTO Secretariat through a page on the WTO website dedicated to the system.

¹⁸ This subparagraph is without prejudice to Article 66.1 of this Agreement.

- (i) only the amount necessary to meet the needs of the eligible importing Member(s) may be manufactured under the licence and the entirety of this production shall be exported to the Member(s) which has notified its needs to the Council for TRIPS;
- (ii) products produced under the licence shall be clearly identified as being produced under the system through specific labelling or marking. Suppliers should distinguish such products through special packaging and/or special colouring/shaping of the products themselves, provided that such distinction is feasible and does not have a significant impact on price; and
- (iii) before shipment begins, the licensee shall post on a website¹⁹ the following information:
 - the quantities being supplied to each destination as referred to in indent (i) above; and
 - the distinguishing features of the product(s) referred to in indent (ii) above;
- (c) the exporting Member shall notify²⁰ the Council for TRIPS of the grant of the licence, including the conditions attached to it.²¹ The information provided shall include the name and address of the licensee, the product(s) for which the licence has been granted, the quantity(ies) for which it has been granted, the country(ies) to which the product(s) is (are) to be supplied and the duration of the licence. The notification shall also indicate the address of the website referred to in subparagraph (b)(iii) above.

3. In order to ensure that the products imported under the system are used for the public health purposes underlying their importation, eligible importing Members shall take reasonable measures within their means, proportionate to their administrative capacities and to the risk of trade diversion to prevent re-exportation of the products that have actually been imported into their territories under the system. In the event that an eligible importing Member that is a developing country Member or a least-developed country Member experiences difficulty in implementing this provision, developed country Members shall provide, on request and on mutually agreed terms and conditions, technical and financial cooperation in order to facilitate its implementation.

4. Members shall ensure the availability of effective legal means to prevent the importation into, and sale in, their territories of products produced under the system and diverted to their markets inconsistently with its provisions, using the means already required to be available under this Agreement. If any Member considers that such measures are proving insufficient for this purpose, the matter may be reviewed in the Council for TRIPS at the request of that Member.

5. With a view to harnessing economies of scale for the purposes of enhancing purchasing power for, and facilitating the local production of, pharmaceutical products, it is recognized that the development of systems providing for the grant of regional patents to be applicable in the Members described in paragraph 3 of Article 31*bis* should be promoted. To this end, developed country Members undertake to provide technical cooperation in accordance with Article 67 of this Agreement, including in conjunction with other relevant intergovernmental organizations.

¹⁹ The licensee may use for this purpose its own website or, with the assistance of the WTO Secretariat, the page on the WTO website dedicated to the system.

²⁰ It is understood that this notification does not need to be approved by a WTO body in order to use the system.

²¹ The notification will be made available publicly by the WTO Secretariat through a page on the WTO website dedicated to the system.

6. Members recognize the desirability of promoting the transfer of technology and capacity building in the pharmaceutical sector in order to overcome the problem faced by Members with insufficient or no manufacturing capacities in the pharmaceutical sector. To this end, eligible importing Members and exporting Members are encouraged to use the system in a way which would promote this objective. Members undertake to cooperate in paying special attention to the transfer of technology and capacity building in the pharmaceutical sector in the work to be undertaken pursuant to Article 66.2 of this Agreement, paragraph 7 of the Declaration on the TRIPS Agreement and Public Health and any other relevant work of the Council for TRIPS.

7. The Council for TRIPS shall review annually the functioning of the system with a view to ensuring its effective operation and shall annually report on its operation to the General Council.

APPENDIX TO THE ANNEX TO THE TRIPS AGREEMENT

Assessment of Manufacturing Capacities in the Pharmaceutical Sector

Least-developed country Members are deemed to have insufficient or no manufacturing capacities in the pharmaceutical sector.

For other eligible importing Members insufficient or no manufacturing capacities for the product(s) in question may be established in either of the following ways:

(i) the Member in question has established that it has no manufacturing capacity in the pharmaceutical sector;

or

(ii) where the Member has some manufacturing capacity in this sector, it has examined this capacity and found that, excluding any capacity owned or controlled by the patent owner, it is currently insufficient for the purposes of meeting its needs. When it is established that such capacity has become sufficient to meet the Member's needs, the system shall no longer apply.

WTO ACCESSION APPLICATIONS AND STATUS
(as of January 1, 2014)¹

Applicant	Status of Multilateral and Bilateral Work
Afghanistan* (2004)	Fourth Working Party (WP) meeting held in July 2013 and the fifth meeting is expected in early 2014. Bilateral market access negotiations are well advanced and completion of this accession is expected in 2014. The United States is providing technical assistance through the United States Agency for International Development (USAID), including drafting documentation, training, legal drafting, and institution building.
Algeria (1987)	Algeria resumed accession negotiations in 2013 with a WP meeting held in April to review an updated draft WP report and to resume of market access negotiations. Next meeting likely in first quarter of 2014.
Andorra (1997)	Inactive. Last WP meeting on October 13, 1999 reviewed legislative implementation schedule and goods and services market access offers.
Azerbaijan (1997)	Eleventh WP meeting scheduled for February 2013. Bilateral market access negotiations on goods and services will take place at that time, as well as review of agricultural support data.
The Bahamas (2001)	Second WP meeting was held in June 2012. The next WP meeting is envisaged for the first quarter of 2014. Bilateral market access negotiations are ongoing on the basis of an initial market access offer on goods, circulated in March 2012, and a revised market access offer on services, circulated in August 2013.
Belarus (1993)	Belarus' last WP meeting was in May 2005. Informal Chairman's Consultations took place in May 2013 based on an updated Factual Summary. At the meeting, Belarus was asked to submit updated documentation and revised market access offers for goods and services. Based on inputs received, the WTO Secretariat was asked to revise the Factual Summary. The next WP meeting will be scheduled as soon as Belarus provides the requested materials. This will include additional information on Belarus' participation in a Customs Union (CU) with Russia and Kazakhstan.
Bhutan * (1999)	Inactive. Fourth WP meeting held in January 2008 to review additional documentation and conduct market access negotiations for goods and services. Bhutan has not requested further work on its WTO accession since that time, and no WP meetings are scheduled.
Bosnia and Herzegovina (1999)	The Eleventh and Twelfth WP meetings convened 2013, the first in March and the second in June. Few issues remain concerning the application of WTO rules, but some of the legislation implementing WTO provisions still must be enacted. The most recent version of the Draft WP Report was circulated in May 2013. Bilateral market access negotiations with interested WTO Members are close to completion. The next WP meeting is expected to be the final meeting, and could take place in 2014.
Comoros * (2007)	Comoros circulated its Memorandum on the Foreign Trade Regime (MFTR), i.e., the initial documentation necessary to activate the accession negotiations, to WTO Members on October 25, 2013. Once replies to Members written questions on that document are circulated, a first WP meeting will be scheduled.
Equatorial* Guinea (2008)	Application accepted at February 2008 General Council meeting; has not yet submitted initial documentation to activate the accession negotiations.

* Designates "least developed country" applicant.

¹ "Applicant" column includes date the Working Party was formed. Pre-1995 dates indicate that the original WP was formed under the GATT 1947, but was reformed as a WTO Working Party in 1995.

Applicant	Status of Multilateral and Bilateral Work
Ethiopia* (2003)	The third meeting of Ethiopia's WP was held in March 2012. The next meeting will be scheduled as soon as Ethiopia submits the required inputs (i.e. replies to Members' questions) for the preparation of the Elements of the Draft WP Report. Bilateral market access negotiations are underway on goods, based on Ethiopia's initial offer circulated in the first half of 2012. Ethiopia must still provide its initial market access offer on services.
Iran (2005)	The MFTR was circulated in November 2009. Replies to the written questions from WTO Members on that document were circulated in 2011. Before a WP meeting can be convened, consultations with Members would need to be undertaken by the Chairperson of the General Council for the designation of a Chairperson of the Working Party.
Iraq (2004)	Iraq's last WP meeting was held in April 2008. A third meeting will be scheduled following Iraq's submission of initial market access offers for goods and services and written responses to questions and comments from the previous meeting.
Kazakhstan (1996)	The WP advanced to its final stages in four WP meetings (March, June, July, and October) during 2013. Kazakhstan continued to make progress towards completion of its WTO accession process, but was unable to fully resolve the handful of remaining issues on agriculture, market access and WTO rules by the end of the year. WTO Members submitted questions, comments, and drafting suggestions on the most recently updated and revised draft WP report in December. In addition, final consolidation and verification of Kazakhstan's goods and services market access schedules was blocked, as discussions with WTO Members continued to adjust both Kazakhstan's WTO bindings on goods to better reflect the Customs Union common external tariff (CET) and the scope of the negotiated services commitments. Kazakhstan provided updated information on agricultural supports and export subsidies, but Members were reluctant to grant additional flexibility on the level of support. Finally, significant work remained to complete legislative implementation of WTO provisions. Kazakhstan seeks to complete its process in 2014.
Lebanon (1999)	Inactive. There have been no WP meetings on Lebanon's WTO accession since October 2009. Lebanon's efforts on legislative implementation remain blocked by domestic political issues, delaying completion of the accession process. Lebanon has provided an improved offer on services market access but there has been no movement on goods. The next WP meeting will be convened after Lebanon submits the necessary inputs.
Liberia* (2007)	Liberia's first WP meeting was held in July 2012. The next meeting will be convened after Liberia submits its replies to Members questions and comments.
Libya (2004)	Application accepted at July 2004 General Council meeting. No documentation or market access offers circulated to date.
Sao Tome and Principe* (2005)	Application accepted at May 2005 General Council meeting; has not yet submitted initial documentation to activate the accession negotiations.
Serbia (2005)	The 13th Meeting of the WP was held in June 2013 and negotiations on the text of the draft WP report and largely complete. Bilateral market access negotiations with interested Members are substantially concluded, pending agreement on some agricultural tariffs. The next and likely final meeting of the WP will be convened when outstanding domestic legislative action (pertaining to, inter alia, commodity reserves; commodity exchange; GMOs; and services) has been completed by Serbia.
The Seychelles (1995)	The Fourth and Fifth meetings of Seychelles' WP were held in June and November, respectively. Comprehensive questions and drafting suggestions on the draft WP report submitted at the end of the year identified remaining outstanding issues. Bilateral market access negotiations with Members and drafting efforts for implementing legislation also made progress in 2013. Seychelles seeks to complete its WTO accession process in 2014.
Sudan* (1995)	Inactive. Second WP meeting held March 10, 2004. Market access offers for goods and services were last tabled in October 2006.

Applicant	Status of Multilateral and Bilateral Work
Syria (2010)	Application for accession to the WTO first circulated in October 2001. Application accepted at May 2010 General Council meeting; has not yet submitted initial documentation to activate the accession negotiations.
Uzbekistan (1995)	Inactive. Third WP meeting held in October 2005 to review additional documentation and initial market access offers. No meetings held since that time.
Yemen * (2000)	Yemen's draft Accession Package was adopted, ad referendum, at the Eleventh and final meeting of the WP, on 26 September 2013. WTO Members approved the Accession of Yemen to the Ninth WTO at the 9th Ministerial Conference in Bali, and it is expected that Yemen will complete its ratification procedures and become the 160 th WTO Member in 2014.

**INDICATIVE LIST OF GOVERNMENTAL AND
NON-GOVERNMENTAL PANELISTS**
Revision

To assist in the selection of panelists, the DSU provides in Article 8.4 that the Secretariat shall maintain an indicative list of governmental and non-governmental individuals.

The attached is a revised consolidated list of governmental and non-governmental panelists.⁶⁵ The list is based on the previous indicative list issued on 3 October 2013 (WT/DSB/44/Rev.26). It includes additional names approved by the DSB at its meeting on 22 October 2013⁶⁶ and reflects deletions from the previous list as proposed by Members. Any future modifications or additions to this list submitted by Members will be circulated in periodic revisions of this list.

For practical purposes, the proposals for the administration of the indicative list approved by the DSB on 31 May 1995 are reproduced as an Annex to this document.

⁶⁵ Curricula Vitae containing more detailed information are available to WTO Members upon request from the Secretariat (CTNC Division).

ANNEX
ADMINISTRATION OF THE INDICATIVE LIST

1. To assist in the selection of panelists, the DSU provides in Article 8.4 that the Secretariat shall maintain an indicative list of qualified governmental and non-governmental individuals. Accordingly, the Chairman of the DSB proposed at the 10 February meeting that WTO Members review the roster of non-governmental panelists established on 30 November 1984 (BISD 31S/9) (hereinafter referred to as the "1984 GATT Roster") and submit nominations for the indicative list by mid-June 1995. On 14 March, The United States delegation submitted an informal paper discussing, amongst other issues, what information should accompany the nomination of individuals, and how names might be removed from the list. The DSB further discussed the matter in informal consultations on 15 and 24 March, and at the DSB meeting on 29 March. This note puts forward some proposals for the administration of the indicative list, based on the previous discussions in the DSB.

General DSU requirements

2. The DSU requires that the indicative list initially include "the roster of governmental and non-governmental panelists established on 30 November 1984 (BISD 31S/9) and other rosters and indicative lists established under any of the covered agreements, and shall retain names of persons on those rosters and indicative lists at the time of entry into force of the WTO Agreement" (DSU 8.4). Additions to the indicative list are to be made by Members who may "periodically suggest names of governmental and non-governmental individuals for inclusion on the indicative list, providing relevant information on their knowledge of international trade and of the sectors or subject matter of the covered agreements". The names "shall be added to the list upon approval by the DSB" (DSU 8.4).

Submission of information

3. As a minimum, the information to be submitted regarding each nomination should clearly reflect the requirements of the DSU. These provide that the list "shall indicate specific areas of experience or expertise of the individuals in the sectors or subject matter of the covered agreements" (DSU 8.4). The DSU also requires that panelists be "well-qualified governmental and/or non-governmental individuals, including persons who have served on or presented a case to a panel, served as a representative of a Member or of a contracting party to GATT 1947 or as a representative to the Council or Committee of any covered agreement or its predecessor agreement, or in the Secretariat, taught or published on international trade law or policy, or served as a senior trade policy official of a Member" (DSU 8.1).

4. The basic information required for the indicative list could best be collected by use of a standardized form. Such a form, which could be called a Summary Curriculum Vitae, would be filled out by all nominees to ensure that relevant information is obtained. This would also permit information on the indicative list to be stored in an electronic database, making the list easily updateable and readily available to Members and the Secretariat. As well as supplying a completed Summary Curriculum Vitae form, persons proposed for inclusion on the indicative list could also, if they wished, supply a full Curriculum Vitae. This would not, however, be entered into the electronic part of the database.

Updating of indicative list

5. The DSU does not specifically provide for the regular updating of the indicative list. In order to maintain the credibility of the list, it should however be completely updated every two years. Within the first month of each two-year period, Members would forward updated Curricula Vitae of persons appearing on the indicative list. At any time, Members would be free to modify the indicative list by proposing new names for inclusion, or specifically requesting removal of names of persons proposed by the Member who were no longer in a position to serve, or by updating the summary Curriculum Vitae.

6. Names on the 1984 GATT Roster that are not specifically resubmitted, together with up-to-date summary Curriculum Vitae, by a Member before 31 July 1995 would not appear after that date on the indicative list.

Other rosters

7. The Decision on Certain Dispute Settlement Procedures for the GATS (S/L/2 of 4 April 1995), adopted by the Council for Trade in Services on 1 March 1995, provides for a special roster of panelists with sectoral expertise. It states that "panels for disputes regarding sectoral matters shall have the necessary expertise relevant to the specific services sectors which the dispute concerns". It directs the Secretariat to maintain the roster and "develop procedures for its administration in consultation with the Chairman of the Council". A working document (S/C/W/1 of 15 February 1995) noted by the Council for Trade in Services states that "the roster to be established under the GATS pursuant to this Decision would form part of the indicative list referred to in the DSU". The specialized roster of panelists under the GATS should therefore be integrated into the indicative list, taking care that the latter provides for a mention of any service sectoral expertise of persons on the list.

8. A suggested format for the Summary Curriculum Vitae form for the purposes of maintaining the Indicative List is attached.
