

**2020 GSP Annual Review: 2019 Import Statistics Relating to
Competitive Need Limitations (CNLs), *De Minimis* Waivers, and Product Redesignations**

This document contains the lists referred to in a forthcoming notice published in the *Federal Register* entitled “Notice of 2020 Generalized System of Preferences (GSP): Annual Review and the Deadline for Filing Petitions.” These lists are provided for informational purposes only. Interested parties are strongly encouraged to independently research the 2019 trade statistics, using the U.S. International Trade Commission’s (USITC) “Dataweb” site, which can be found at <https://dataweb.usitc.gov/>.

List I identifies GSP-eligible articles from beneficiary developing countries (BDCs) that exceeded a Competitive Need Limitation (CNL) by having been imported into the United States in 2019 in excess of \$190 million, or in a quantity equal to or greater than 50 percent of the total U.S. import value for this product in 2019. These products will be removed from eligibility for GSP for the subject countries on November 1, 2020, unless the President grants a waiver for the product for the subject country in response to a petition filed by an interested party. The 50 percent CNL, however, does not apply to a product if a like or directly competitive product was not produced in the United States in any of the preceding three calendar years. Petitions for CNLs can be submitted in accordance with the requirements set out in the referenced Federal Register notice.

List II identifies GSP-eligible articles from BDCs that are above the 50 percent CNL, but that are eligible for a *de minimis* waiver of the 50 percent CNL since total U.S. imports of the product are less than \$24.5 million. Articles eligible for *de minimis* waivers are automatically considered in the GSP annual review process, without the filing of a petition. Petitions to deny *de minimis* waivers can be submitted in accordance with the requirements set out in the referenced Federal Register notice.

List III identifies GSP-eligible articles from certain BDCs that are currently not receiving GSP duty-free treatment, but that may be considered for GSP redesignation based on 2019 trade data and consideration of certain statutory factors. Petitions for redesignation can be submitted in accordance with the requirements set out in the referenced Federal Register notice.
